

## Alcohol and Drug Services

### DESCRIPTION OF MAJOR SERVICES

The DBH Alcohol and Drug Services (ADS) program consists of comprehensive substance abuse prevention and treatment programs to county residents. Services are provided by 6 county operated clinics and approximately 30 contractors. The major components include outpatient, residential, prevention, methadone, and case management services. Annually, approximately 12,500 clients are served and over 80,000 hours of prevention services are performed.

Alcohol and Drug Services are primarily funded by federal block grant and state revenues (62%). The remaining sources of revenue are court fines for Driving Under the Influence (DUI) offenses, fees for services, San Bernardino County Administrative/Executive 2007-08 Business Plan Behavioral Health 53 and reimbursements provided by Human Services System (HSS) CalWORKs program and the Proposition 36 (Prop. 36) – Substance Abuse and Crime Prevention Act program. In addition, the county must fund the required maintenance of effort (MOE) for the block grant and state funds. The department's local cost of \$149,458 finances the required MOE.
